

Dear Yang,

Thank you so much for your generous gift to the National Foundation for Cancer Research. We are so grateful for your support to our organization in support of funding scientific cancer research. NFCR continues to distinguish itself by emphasizing long-term, transformative research, while recently establishing a Cancer Helpline, providing one-on-one support to cancer patients and their caregivers and family members. Please reach out if there is anything we can do. We hope you are staying safe during this time. Thanks again.

Sincerely,  
Brian Wachtel  
Executive Director
